

MICRONA™ MF200 Mineral Feed

Calcium Carbonate

For Further Manufacture of Feed

CALCIUM CARBONATE High Quality

MICRONA™ MF200 mineral feed is a fine, powdered Calcium Carbonate product for animal feed mixes.

- For feed blends that require a high calcium content.
- Harmless to skin and clothing.
- Non-water soluble.
- Non-caustic, will not harm or cause lime burns.

Calcium Carbonate is a major component of an animals body. This mineral regulates cell activity, metabolic processes, and is involved in the development of the bones and the skeleton as a whole.

For best results, consult reliable feed and nutrition recipes which consider the complete mineral balance and specific needs of the animal.

LIMITATION OF WARRANTY

Except as expressly provided herein, seller makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage or trade, statutory or otherwise, with regard to the product sold, including, but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade or consumer usage.
